

**2023 Fall Conference**  
**October 18-20, 2023**

**Bavarian Inn**  
**Frankenmuth, MI**

Welcome to the MiHSE Annual Fall Conference. We are very excited to offer new opportunities this year with the addition of many breakout sessions to meet the needs of our diverse membership. The conference planning committee has worked diligently to bring our attendees relevant information in a TED-Talk type format so that you will leave each session with strategies that can be implemented right away in the classroom. New this year are sessions dedicated to meeting with those who are in your region as well as meeting time with those who are in the same certification group. We are welcoming a variety of vendors this year as well.

If you are a health science educator, this is the conference for you to attend this year. The conference cost also includes a membership to MiHSE and the Health Science Educator Association (HSEA) group. These memberships provide you with ongoing professional development education, monthly newsletters, and scholarship opportunities for your students.

The conference begins on Wednesday evening with our Executive Board meeting. Members can take time in the evenings to enjoy the sights and wonders of Michigan's "Fun Town"! Horse drawn carriages, shopping at the local outlet mall, unique shops, and dining opportunities are available.

Reservations can be made at [Bavarian Inn](#), requesting the MiHSE group rate.

If you have any questions please contact MiHSE at [18mihse@gmail.com](mailto:18mihse@gmail.com).

We look forward to seeing you in October!

Sincerely,

Dr. Melissa K. Haworth  
President MiHSE

# MiHSE

## 2023 Fall Conference Agenda

### Wednesday, October 18, 2023 3:30 pm

- Executive Board and regional representatives meeting
- Executive Board and regional representative training
- Executive Board and regional representative dinner
- Vendor check in and set up

### Thursday, October 19, 2023 Schedule

Time	Room	Presentation	Presenter
8am - 9am	Registration/Vendor expo Hallway (both floors) and breakfast		
8am - 8:45 am	Brahms Room	Morning Yoga	K.Ryno
9 am	Bach and Beethoven	Welcome	M. Haworth
9:30 am	Bach and Beethoven	Michigan ELibrary	Ann Kaskinen
10:30-11:10 am	Hallway (Both Floors)	Vendor/Snack Break	
11:15 - 12:15 pm	Regional Group Meetings and trainings	<b>Region 1 - Danube</b> <b>Region 2- Bach &amp; Beethoven</b> <b>Region 3-Altmuehl</b> <b>Region 8/9- Brahms</b>	<b>Region 4-Brahms</b> <b>Region 5- Brahms</b> <b>Region 6- Bach &amp; Beethoven</b> <b>Region 7-Mosel/Rhine</b>

1:30 - 3 pm	Bach & Beethoven	State of MI updates/Perkins 5/ certifications	C. Mills
3 pm - 3:30 pm	Closing/Adjournment		

# Session Descriptions:

## **Regional Group Meeting and Trainings**

Each region will meet in their designated area. The session will begin with training facilitated by executive board members. Training will focus on the following:

1. Goals of MIHSE
2. How regional members can contribute within the MIHSE
3. Benefits of MIHSE to the regional level
4. Responsibilities of Regional Representatives

After training the regional meeting will be held and representatives for the upcoming year will be nominated and selected by the individual region.

## **Best Practices Group Session Breakout**

Individual instructional groups (CNA, EMT, Therapy, etc.) will have designated areas to meet as a group to discuss strategies and best practices to achieve student success. This session will be facilitated by an executive board member with a focus on the following objectives:

1. Content covered in the program
2. Areas that students are excelling
3. Areas that students are struggling
4. Approaches to meeting student needs and achieving student growth in the designated cluster
5. Certifications offered in the program

# Breakout sessions Thursday:

## **HOSA Best Practices - Mark Burley**

Attendees will learn how to best prepare students for HOSA events. Attendees will also learn how to incorporate HOSA into the day-to-day lesson plan so that it is not an additional burden but rather a tool to improve student engagement.

Breakout sessions Friday:

**Friday Keynote Presentation**

**Perkins 5 and CTE Updates with Celena Mills**

## **Our Presenters:**

### **Celena Mills**

Celena joined the Office of Career and Technical Education in 2019 after working for almost 20 years in career and technical education at Montcalm Area ISD. She started her career as a cosmetology teacher, moved into a role as a curriculum specialist after several years in the classroom, and then worked in multiple administrative positions as a career center principal, associate superintendent of CTE and a CEPD administrator. Her background in Health Sciences includes formal training in massage therapy and a love for anatomy & physiology.

Celena currently works as an Education Consultant supporting Health Science, Cosmetology, and Marketing programs, as well as programs in the Transportation Cluster. She also facilitates work on the Perkins V Career Pathways Grant and Work Based Learning initiatives.

### **Mark Burley**

Mark is the Director of Michigan HOSA. As the Director, Mark conducts regional, state and national level conferences to help acknowledge and inspire students in their pursuit of a healthcare career. HOSA is a National Career and Technical Student Organization that provides a unique program of leadership development, motivation and recognition exclusively for secondary and post-secondary students enrolled in health science education programs.

Learn more at [www.michiganhosa.org](http://www.michiganhosa.org)

### **Kathy Van Til**

Kathy is an Allied Health Technology instructor with the Muskegon Area Career Tech Center. She has presented at many State of Michigan CTE conferences on using technology, Google based programs, and project based learning. Kathy has expertise in both CTE as a certified CTE instructor and in health sciences as a certified Occupational Therapy Assistant. Her experience includes CTE, community college program administration, home health care, and professional presentations at the Michigan Annual CTE conference and Learning on the Lakeshore conferences.

### **James Wiggins**

James Wiggins is the State Administrative Manager- Bureau of Community and Health Systems, Nurse Aide and Workforce Section where he manages investigations, nurse aide registry and testing contract and Nurse Aide Trainers and Training Programs. James has a B.A. Criminal Justice from Michigan State University. He has served many roles within the State of Michigan including Regulation Agent-Bureau of Professional Licensing-1994-2015, investigator of allegations of the Michigan Public Health Code by licensed health professionals, Regulation Officer for the Bureau of Community and Health Systems, inspector of Substance Use Disorder licensed facilities.

### **Moneah James**

Moneah James has been with the State of Michigan in the Bureau of Health Professions since 2002. Currently she is the Departmental Analyst for the Bureau of Community and Health Systems where she regulates, inspects and approves permits for nurse aide trainers and training programs.

### **Kalyn Soltice**

National Healthcareer Association

Regional Partnerships Manager

Kalyn Soltice is the Regional Partnerships Manager of the CTE division for the National Healthcareer Association (NHA). She oversees partnerships with secondary institutions, school districts, and state Departments of Education, ensuring successful implementation of NHA's nationally recognized, accredited credentials. Along with a team of Client Executives, Kalyn has implemented NHA certifications in school districts across the country, increasing student success by educating teachers about effective preparation practices and program planning.

### **Lori Bowker RN, BSN and Pam Lesniak RN, BSN**

Lori and Pam are registered nurses and former instructors of Health Science CTE programs. As entrepreneurs in the healthcare field they have created a successful training company called Measures for Success. They provide CPR and First Aid training as well as CNA training and CNA testing for the Mid-Michigan area. As former classroom instructors they bring a unique perspective to helping achieve CNA and CPR training in the classroom with young learners.

### **Angela Pilbeam**

Angela is a dental assisting instructor for the LISD TECH Center in Adrian, MI. This is her 11<sup>th</sup> year of teaching full time. She began her teaching career in 2006 by teaching dental assisting for an adult education program. She has been a dental hygienist for over 26 years and still currently works part time in a dental office and as an office manager and hygienist. One unique thing to know about Angela is that she took over for the instructor who taught her dental assisting in High School! Angela is a huge CTE advocate and looks forward to sharing. She has been using Evidence Based Reporting for the past 4 school years after taking a year to build it. Angela plans to show how she used EBR for skill evaluations and on how to implement EBR in classrooms. She will also give some of her best practices and instructional games for formative and summative assessments. Angela obtained her dental hygiene degree from Kellogg Community College, Bachelor's degree from Siena Heights University, and Master's degree in Educational Leadership from Western Michigan University.

### **Dan Cramer**

Dan Cramer is an Account Manager with Realityworks, Inc. His Bachelor of Science degree in Health Care Administration from the University of Wisconsin-Eau Claire, as well as extensive experience with education providers in pharmacotherapy, medical and dental device sales, are an asset as he presents at organizations, agencies and schools throughout his territory to help make a difference in young people's lives. Through his work, Dan is raising awareness about hands-on learning and implementing innovative learning solutions in all areas of Career & Technical Education, including Health Science, Family & Consumer Science, Welding & Trade Skills and more.

### **Amy Randall, MSN, RN, TCRN**

Amy Randall is the Pediatric Trauma and Injury Prevention Program Manager at C. S. Mott Children's Hospital. C. S. Mott is one of only three Level I Pediatric Trauma Centers in the State of Michigan. Ms. Randall is responsible for ensuring the hospital maintains this status and meets all requirements as set forth by the American College of Surgeons Committee on Trauma. The focus of the Pediatric Trauma and Injury Prevention team is to ensure excellence to all injured patients presenting for care and working collaboratively within the community to reduce injury. This is accomplished by seeking new and unique ways to deliver injury prevention messaging and trauma care initiatives.

Ms. Randall obtained her Bachelor of Science of Nursing degree from Oakland University and her Master of Science of Nursing from University of Detroit Mercy. In her 25+ years of nursing, she has worked in a variety of settings including school, hospice, emergency, urgent care and trauma nursing. While her career has been diverse, she has truly found a passion for pediatric trauma care and prevention during her tenure at C. S. Mott.

### **Clarissa Santana, MA**

Clarissa Santana is an Injury Prevention Specialist for the Pediatric Trauma Program at C.S. Mott Children's Hospital. During her tenure, Clarissa has focused much of her efforts on child passenger safety and medication safety. She has

worked on creating a variety of injury prevention resources including, but not limited to, safety videos, a children's book about pain, and an opioid awareness curriculum. Clarissa has built community partnerships throughout Southeastern Michigan to reach underserved communities to advocate for safe home environments. Clarissa is also a Limited License Counselor specializing in issues such as anxiety, depression, life transitions, and trauma.

She graduated from Eastern Michigan University with a degree in psychology and earned her master's degree from Wayne State University in Clinical Mental Health Counseling. In her spare time, Clarissa enjoys spending time with her husband and dog (Louie) watching spooky movies.

### **Marie Snodgrass**

Marie Snodgrass is the Injury Prevention Program Lead for the Pediatric Trauma Program at C.S. Mott Children's Hospital, a verified Pediatric Level 1 Trauma Center at the University of Michigan. Marie is also the coordinator for Safe Kids Huron Valley, helping to provide safety education across Washtenaw and Livingston Counties. Marie has a degree in Social Work from the University of Michigan and prior to coming to Mott, she worked 15 years as a Family and Community Support Coordinator, with the Carman-Ainsworth Head Start program. Marie is the mother of two boys, ages 19 and 16.

### **Shawn Schutt**

Shawn has a Master's degree in Public Health and has worked in the field of domestic and sexual violence prevention for over 5 years. He has presented to middle and high schoolers, college students, health care professionals, bar staff, and businesses on topics ranging from consent, healthy relationships, human trafficking, warning signs of violence, and policy implications. He uses his desire to create equitable, inclusive, safe communities, to dictate his presentations and training, centering community needs and beliefs along with social justice to build change.

### **Dr. Melissa K. Haworth**

Melissa is the current MIHSE President, and Nursing Occupations Instructor at the Saginaw Career Complex. She has been a nurse since 2003, and has a variety of experience in both patient care, management, and education.

### **Kathy Ryno**

Kathy is a CTE instructor in the upper peninsula of Michigan. In addition to being the MIHSE treasurer, Kathy is also a Yoga instructor and is involved in many committees and school events.

# Vendors

## **National Healthcareer Association (NHA) Overview**

NHA empowers people to access a better future through certification exams, preparation materials and learning resources across eight allied health careers. NHA is driven to improve the quality of your Health Science Programs. We are passionately committed to developing, advancing and advocating for the frontline healthcare worker, resulting in improved patient care.

## **DEPCO**

The Health Science Education Series are correlated to the National Health Science Standards established by the [National Consortium on Health Science Education](#) to create an educationally sound, standards-driven curriculum with specific, hands-on skill sets. Both programs have also been correlated to many states. The two programs include:

**Health Science Foundations** - Eleven units totaling 120-150 hours delivered in a web browser format accompanied by lesson plans for instructor-led activities.

**Career Pathways** - a high-level, multimedia modular curriculum designed to give students knowledge and hands-on experience in specific career areas; educators can use the curriculum as either independent or lock-step group study.

## **Reality Works**

Realityworks provides comprehensive learning solutions that pair curriculum with hands-on learning aids, student activities and assessment tools to create innovative learning environments. These solutions are used in middle, secondary and post-secondary schools to engage students, teach needed skills and provide career exploration opportunities. Many of Michigan's Health Science Programs have received equipment from Reality Works in 2022 as part of a grant opportunity written by Celena Mills.

## **Applied Educational Systems**

Most teachers feel they spend too much time planning and grading, so we created a curriculum system to help shoulder that burden. When you spend less time on administrative work, you can focus more on doing what you love – empowering students.

Make students your priority with a comprehensive health science curriculum system for Intro to Health Science, Anatomy & Physiology, Medical Assistant, Nurse Assistant, and more.

## **Goodheart-Willcox**

Goodheart-Willcox is a leading publisher of print textbooks and online curriculum for Health Sciences. For 100 years, G-W has focused exclusively on providing affordable, high-quality resources for the CTE classroom. Current titles include Health Science: Concepts, Intro to Health Science: Pathways, Intro to Medical Terminology, Intro to Anatomy & Physiology, Medical Law & Professional Ethics, Nursing Assistant and Essential Skills for Health Career Success. Stop by the G-W exhibitor booth to preview and request samples of these titles and hear about new titles coming for Fall 2023 from your local Michigan Educational Consultant: Allen McCaskill

G-W website for more details: [www.g-w.com](http://www.g-w.com)

Michigan Educational Consultant: Allen McCaskill email: [amccaskill@g-w.com](mailto:amccaskill@g-w.com) Ph: 708-929-2209

## **University of Michigan- Flint**

The College of Health Sciences at the University of Michigan-Flint offers world-class bachelor's and master's programs to train future leaders in health care. Bachelor's degrees include Health Care Administration (100% online), Health Sciences (pre-professional program), Public Health, Radiation Therapy and Respiratory Therapy (online completion program for those with an associate degree). They are also planning to add several new bachelor's degrees for fall 2023 that will be announced soon. UM-Flint is also the only University of Michigan campus to offer several renowned graduate programs, including a Doctorate in Physical Therapy, Occupational Therapy Doctorate, Doctorate in Nurse Anesthesia and Master's in Physician Assistant. UM-Flint also offers completely online master's degrees in Healthcare Management and Public Health. Learn more at [www.umflint.edu/chs](http://www.umflint.edu/chs).

## **Discover YOU**

**Discover You™** is a program that helps students successfully forge their futures and gives them the tools they need to develop positive life skills and strong character traits. It is a ROCK-authored and copyrighted, curriculum-based program that focuses on the whole youth, social and emotional learning, intrinsic motivation, resilience, and 21st-century job skills. **Discover You™** addresses significant problems facing today's youth including bullying, suicide, and substance abuse as well as ultimately improving community outcomes by reducing crime, lost labor market benefits, and the resource burden of future social services needed. It is a tier one and two mental health intervention. [discoveryou.org](http://discoveryou.org)

## **C.S. Mott Children's Hospital University of Michigan Ann Arbor, MI** **C. S. Mott Children's Hospital Pediatric Trauma Injury Prevention**

The mission of the C.S. Mott Children's Hospital Pediatric Trauma Injury Prevention Program is to provide excellence in clinical care, education, advocacy, and research to advance the health of injured children and their families. The Trauma Program is dedicated to reducing the burden of pediatric trauma through effective injury presentation programs in communities both statewide and nationally. We believe that most unintentional injuries are preventable. While bumps and scrapes in children are a part of learning and growing, our goal is to reduce preventable injuries by improving resources, education, and legislation to reflect what we've learned about injury in the last few decades. For more information or printable resources, visit our website [www.pediatrictrauma.org](http://www.pediatrictrauma.org).

## **Gift of Life**

Gift of Life Michigan, headquartered in Ann Arbor, is the state's federally designated organ and tissue recovery program, providing all services necessary for organ donation to occur in Michigan.

Gift of Life recovers more than 1,000 organs every year for transplantation from nearly 400 or more donors, saving hundreds of lives. Bone, skin and other tissues are also recovered, helping to significantly improve the lives of thousands of seriously injured and sick recipients. Gift of Life also works with Eversight to manage cornea and eye donation. In addition, Gift of Life maintains and grows the Michigan Organ Donor Registry in partnership with the Michigan Secretary of State and Donate Life America. The registry is a confidential database of people who have documented their decision to help others by becoming an organ, eye and tissue donor upon their death, if medically suitable. **We honor life through donation. Join the Donor Registry today at [GOLM.org](http://GOLM.org)**
